E Series Automated Dispensing Systems

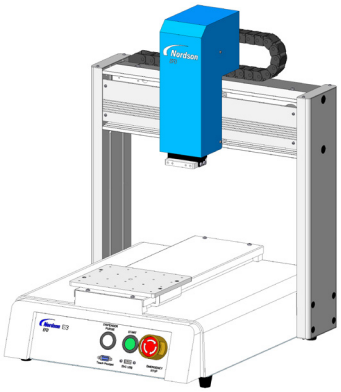

Easy automation for precise fluid application with Teach Pendant programming

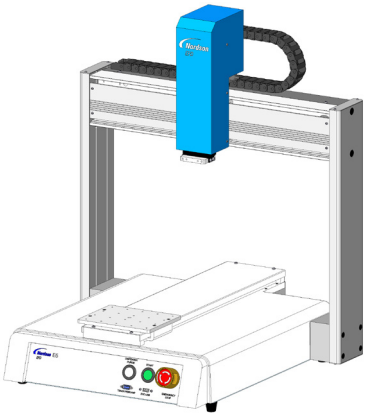

E Series makes automation easy and is available in three sizes for a wide range of working envelopes.

E2 (200 x 200 x 50 mm)

E3 (300 x 300 x 100 mm)

E5 (500 x 500 x 150 mm)

Teach Pendant makes programming fast and easy.

Nordson EFD's E Series automated systems are configured for precise fluid dispensing using EFD syringe barrel and valve systems.

The E Series relies on an easy-to-use Teach Pendant for programming. True three-dimensional motion control allows easy programming of dots, lines, circles, arcs, and compound arcs.

Platforms range from 200 x 200 mm to 500 x 500 mm, making them an ideal solution for batching or critical dispensing applications.

The E Series can work as a standalone system or as a key part of an automated solution and is easily integrated into in-line transfer systems, rotary tables, and pallet assembly lines.
